

LNG Superintendent - Maintenance

EXMAR Ship Management is a maritime and offshore company ensuring 24/7 operations of specialized floating assets. We deliver tailor-made technical, crewing and marine management, training and consultancy services, combining our maritime and offshore know-how with an innovative approach.

The LNG Business Unit manages a diverse fleet of conventional LNG carriers, Floating Storage and Regasification Units and LNG production facilities worldwide. The superintendents team ensures that all floating assets are technically managed at the highest standard, taking into account industry best practices, innovative solutions, customer requirements in full compliance with the applicable regulations and international conventions.

Today, in order to support our enlarged set of activities, we are looking to expand our office team in Antwerp with a LNG Superintendent - Maintenance.

Your role

As LNG Superintendent - Maintenance you are responsible for the maintenance and technical management of a number of assigned LNG processing units currently in development phase.

Your main responsibilities include:

- you develop and establish the strategies for performing and improving the maintenance of the infrastructure under your management with a focus on availability and reliability, in compliance with applicable regulations. This includes training and the use of new technologies
- you ensure that the units under your supervision are maintained to a standard that enables annual production plans to be met, and the long term integrity of all assets are established through proper life asset planning; including the preparation and coordination of technical stops;
- you consult at ongoing base with external stakeholders and other departments of the organisation to finetune operations, budgets and processes
- you foster, establish and maintain relationships with the operations personnel of the units with an eye on continuous improvement of performance and processes
- you establish and report the maintenance budget required to achieve the annual plan and manage expenditure within budget levels
- you ensure the issuance of reports and the recording of key information is produced in due time;
- you provide and apply your technical expertise on maintenance throughout the entire organisation and you deliver first support to solve unplanned events;
- you regularly visit the assigned units with an eye on continuously improving the quality of the delivered services

Your qualifications

- Master's degree in Engineering; (Electromechanical, Mechanical or related field)
- Ability to troubleshoot and repair machinery through the use of blue prints, P&ID schematics and root/cause failure analysis;
- 5+ years' mechanical and/or electrical supervisory experience;
- Excellent communication and social skills,
- Fluent expression in English (written and oral)
- Ability to work in multicultural environments
- Experience in maritime and/or offshore asset maintenance is a plus.

Your talents

- *Cooperation*: you like working or acting together willingly for a common purpose or benefit
- *Listens*: you are able to correctly take on-board and process verbal messages, by observing responses and further questioning
- *Problem Analysis*: you process data, make connections, clarify the problem and systematically go in search of associated information to be able to solve the problem
- *Adaptability*: you remain purposeful by adapting to changing conditions, tasks, responsibilities and people
- *Reliability*: you act consistently with integrity, objectivity and transparency, you take up responsibility and honour agreements
- *Organisation and planning*: you are well-organised and you finish your tasks as per (your) plan
- *Innovative*: you look with an investigative and curious spirit at future renewal of strategy, products, services and markets
- *Persuasiveness*: by using influencing methods and well underpinned arguments, you bring others to a certain point of view and gain their approval.

Our offer

Exmar Ship Management offers a competitive salary and a comprehensive benefit package. We are an equal opportunity employer.

You may also expect a steep learning curve and the flexibility to adapt this learning curve to your personal interests. Moreover, you will be working in a young and enthusiastic environment.

Our values are *Respect, Commitment, Working in Alliances* and *Innovation*. We believe in these qualities, which are essential for building an even stronger Exmar Ship Management. If you can identify with them, you could be the one to strengthen our team.
